

The logo for TINKER features the word "TINKER" in a bold, white, sans-serif font. Each letter is intricately filled with green and red circuit traces, resembling a printed circuit board (PCB) layout. The letters are set against a dark grey rectangular background. On either side of the text, there are three concentric, curved lines in a vibrant green color, resembling signal waves or radar pulses. The entire graphic is centered on a background of concentric, curved lines that transition from green on the left to blue on the right, suggesting a radar or lidar sensor's field of view. Faint, semi-transparent images of a car's chassis and wheels are visible in the background, partially obscured by the sensor waves.

TINKER

**FABRICATION OF RADAR AND LIDAR SENSOR PACKAGES
ENABLED BY ADDITIVE MANUFACTURING**
